AVAILABILITY

Remote-first — comfortable collaboration across CET±3. Open to international relocation where travel and accommodation are supported.

IN NUMBERS

10+	YEARS IN AEC / BIM
17	COUNTRIES DELIVERED
85,000+	M ² MODELLED & COORDINATED
40–50	DESIGNERS LED

BIM MANAGEMENT

- ISO 19650 information management
- BEP / EIR authoring
- BIM standards & implementation
- CDE administration — ACC / BIM 360, Dalux
- Federated model management
- Clash detection & model QA
- 4D/5D · quantity take-off
- RIBA Plan of Work 2020
- BS EN ISO 19650-2 naming

SOFTWARE

- Revit (expert) · Navisworks
- Dynamo · Generative Design
- Primavera P6 · AutoCAD
- ReCap / point clouds · IFC
- Custom Revit plug-in development

Enes Cemil Yağcı

BIM MANAGER · ARCHITECT · AUTODESK EXPERT ELITE

01 PROFILE

Architect and BIM Manager with **10+ years in the AEC industry**, including six years leading a 40–50-strong multidisciplinary design team at ESC Engineering — delivering BIM projects across **17 countries and 85,000+ m²**: airports, hospitals, data centres, retail chains, high-rise and heritage buildings. Led RIBA Stage 5–7 execution-drawing coordination on **Leas Pavilion, Folkestone (UK)**. Now Founder & BIM Manager of ECY Architecture & BIM Solutions, delivering ISO 19650-aligned Revit production, Scan-to-BIM and federated coordination remotely for clients across Europe and the Middle East. **Autodesk Expert Elite** — one of ~290 professionals worldwide. Seeking a remote BIM Manager or BIM Coordinator role with a UK or EU practice.

02 EXPERIENCE

Founder & BIM Manager — ECY Architecture & BIM Solutions

MAR 2023 – PRESENT

Adana, Türkiye (remote-first) · BIM delivery consultancy for practices, contractors and survey firms across Europe and the Middle East — ecy.com.tr

- Deliver ISO 19650-aligned scopes end-to-end: BIM Execution Plans and CDE setup, Revit modelling at LOD 300–400 (as-built to LOD 500), Navisworks clash detection, and 4D/5D planning with Primavera P6.
- Erbil International Hospital (Iraq) — structural BIM and federated coordination at LOD 350; **829 clashes resolved** across a 20-week programme.
- HEMA, Emmen (Netherlands) — **3,500 m² Scan-to-BIM**: E57/RCP point cloud to as-built Revit model at LOD 300, delivered fully remotely in eight weeks.
- Provide Revit and BIM-process training to practices and project teams; currently expanding into the UK market through a UK-based representative.

BIM Manager — ESC Engineering Ltd.

APR 2017 – APR 2023

Adana, Türkiye · multidisciplinary engineering and architectural production for projects across Europe and beyond

- Led and supported a multidisciplinary team of **40–50 designers** delivering BIM projects across 17 countries and 85,000+ m² — airports, hospitals, data centres, retail chains, high-rise and heritage buildings, at every LOD.
- Authored the firm's BIM standards, Execution Plans, user guides, templates and content libraries; completed the practice's full BIM implementation.
- Administered CDEs on Autodesk BIM 360 / Collaborate Pro and Dalux; generated and managed federated and central models across disciplines.
- Produced model-based quantity take-offs and cost analyses for quantity surveyors; delivered multidisciplinary Scan-to-BIM modelling from point-cloud surveys.

RECOGNITION

Autodesk Expert Elite

Oct 2022 – Present · ~290 members worldwide from 47 countries — one of only 20 in Türkiye.

BIM4TURKEY — Regional Rep.

Apr 2022 – Present · national platform advancing BIM across industry, education and public institutions.

CERTIFICATIONS

- Oracle Primavera P6 — foundation & advanced · AKIM Engineering, 2016
- BIM Manager: Managing BIM 360 · LinkedIn Learning
- Quantity Takeoffs for BIM · LinkedIn Learning
- Short courses in AI for project management

EDUCATION

B.Arch — Architecture

Çukurova University
Faculty of Engineering & Architecture · 2012 – 2016

LANGUAGES

- Turkish — native
- English — professional working
- Dutch — elementary
- German — beginner

TEACHING

Freelance Revit instructor since 2016 — two years pro bono at Çukurova University, then training for practices and professional groups.

BIM Manager — ESC Engineering Ltd. (continued)

- Automated documentation and modelling workflows with Dynamo scripts and custom Revit plug-ins; wrote technology evaluations and budgets aligned to corporate goals.
- Mentored Revit users daily to hold standards and productivity across the team; produced construction-drawing standards, layouts and photoreal visualisations.

SELECTED PROJECT — UNITED KINGDOM

Leas Pavilion, Folkestone — Grade II listed restoration + 9-storey, 91-apartment development (133,715 sq ft)

Restoration of the 1902 Edwardian tea room beneath a new nine-storey residential building. Led RIBA Stage 5–7 execution-drawing production and multidisciplinary coordination (structural, mechanical, electrical); reviewed subcontractor BIM models and shop, installation and fabrication drawings for dimensional accuracy, coordination tolerances and value engineering.

BIM Architect — Kulak Construction Co.

AUG 2016 – APR 2017

Adana, Türkiye

- Ran 4D/5D phasing and cost-estimate tracking on site through the BIM model; contributed to planning works for the Kocaeli Integrated Health Campus — High Security Forensic Hospital.
- Site chief for Kıyıboyu Housing, Adana (three 15-storey blocks, 140 apartments) — progress reporting, payment certificates, budgeting, work scheduling and shop-drawing supervision, all driven from the model.

Architect — artLeVeL Mimarlık

FEB 2014 – MAR 2016

Adana, Türkiye · part-time alongside studies

- Produced schematic and construction drawings, BIM models, visualisations and animations; liaised with contractors and resolved design issues on site.

03 HOW I WORK REMOTELY

Proven remote delivery for clients in the Netherlands, Iraq and the UK from Türkiye — structured around ISO 19650: agreed BEP and naming conventions up front, a clean CDE workflow (WIP → Shared → Published), weekly federated-model coordination reviews, and clash reports with tracked issue resolution. One team, one model, one point of responsibility — from point cloud or brief to handover documentation.
